Three of our Dobson Ranch Toastmasters made it to the Division Contest—a h accomplishment and a reflection of the talent and dedication within our club!

To celebrate (and maybe regain some strength after all that speaking!), our te gathered at a local Mexican restaurant for some well-earned food, fun, and fellowship.

Moments like these remind us that Toastmasters is about more than public speaking—it's about community, growth, and supporting each other through € stage of the journey.

Congratulations again to our amazing speakers—we're proud of you!

Want to give a great evaluation? Match the energy—and the structure—of the speech.

That's exactly what Rupesh Parbhoo did this week, and it earned him the Best Evaluator Award at Gilbert Toastmasters!

Marie's speech played out like a TV game show, with playful questions and teamstyle competition. Rupesh didn't just give useful feedback (which he did). He matched her style, turning his evaluation into a series of "Who was the best at..." moments that mirrored the structure of her speech.

It was clever, engaging, and totally in sync with the original message.

A great reminder that the how can be just as powerful as the what. Well done, Rupesh!
